INTERWOVEN PICKET FENCES

The Lincraft Interwoven Picket is one of the least expensive and easiest to erect of all fences. It has the fine appearance of an all-wood fence, yet costs even less than the usual all-wire fence. The pickets ($\frac{1}{2}$ x 2 inches) are firmly interwoven with strong galvanized wire in double strands with four twists between the pickets so that they will not loosen or pull off.

Supplied in 100 ft. rolls and with Fir, Chestnut or Cedar pickets. The pickets are stained a lasting green or red, or left natural wood color as desired. Cut to length to suit customer.
